

Jaltemba Bay Animal Rescue

Advocating humane and healthy practices for animals in the Jaltemba area by promoting health, education, sterilization, adoptions, foster care and positive relationships with animals and their owners.

December 2006 to April 2011: During this time, there were 10 clinics and more than 2,037 animals spayed or neutered in the Jaltemba Bay Area!

Clinic Update:

A huge success with 245 animals arriving during our four day clinic. There were 144 dogs and 65 cats sterilized along with three eye operations, one cleft palate operation, one hernia operation and three dental surgeries in addition to a number of consultations.

Fifteen animals were adopted out in Mexico and eight animals will be flown to Victoria for adoption totaling twenty-three lucky animals who will receive good homes.

Our medical team from P.E.A.C.E. along with our Canadian medical team from the MacKenzie Veterinary Services in Victoria headed by Dr. Malcolm Macartney worked tirelessly to perform the surgeries. Many thanks to all the members of both teams.
